Dear Professor Lederberg,

I hope that you have received my last letter in which we have informed you of the postponement of our Conference to the Month of August 16-20, and I therefore sincerely hope that we shall have the pleasure of having you with us as our guest of honor.

There will also be a symposium on Jewish Genetics and we would consider it as a very great privilege if you would accept our cordial invitation to preside this symposium.

I am also sending you few letter which we have received and which show the interest in our Conference is growing in many circles in the world at large.

Looking forward to hear from you and to have you with us I remain meanwhile with my warmest wishes for a joyful Passover-Pessach.

Cordially yours,

Isac

Prof. Isac Halbrecht

Dear Isaac -

I hoped time might
bring a mitigation; but
it remains now manifestly
impossible to join you. Good wishes

Joshua
